PWS820240318

The tension and compression load cell 60050 (also known as traction or S-type load cell) has been designed for the industrial fiscal weighing of small tanks and hoppers. The traction load cell 60050 has excellent characteristics of linearity and precision and an excellent resistance to overloads of more than 300%. The 60050 S-type cell is made of stainless steel and it is waterproofed to be used in severe environmental conditions.
